
IMPLEMENTATION SPECIALIST

At Maerix we don't have a job description, but we can explain what it's going to be like as best we can. The job starts with the customer signing a contract, while the sales team gives you a pass on the pallet. Your responsibility is to take the puck and guide the customer through the entire implementation phase: meetings, introduction, integration, training, inventory, implementation, support and satisfaction follow-up. You're the one who scores top marks! The customer is satisfied and you get a standing ovation. You share the feedback with your colleagues, because it's a team effort! You're provided with the best equipment for the job: computer, software, cell phone, training, highly competent colleagues, etc. To succeed, you need interpersonal skills and a minimum of talent for handling a computer. Of course, knowledge of the occupational health and safety field will give you a head start in the draft.

Specific requirements & skills needed

- Interpersonal skills, discipline, work organization
- Bilingualism, written and spoken
- Permanent full-time position, 37.5 hrs daytime, Monday to Friday
- Know how to make good coffee when you come to the office (if not, you can work from home!)
- Own a car and have a valid driver's license, as you'll be traveling to customer sites, sometimes for days at a time
- Possess a passport or be able to obtain one to travel to our international customers
- Start date: As soon as possible

Here at Maerix:

- No stress = No time clock
- No hierarchy, just people building their future as a team, one implementation at a time

In conclusion (this is our last chance to convince you!), you can't remain indifferent to our simplicity, our efficiency and our legendary ingenuity. Do like our 350 clients, including P&G, Volvo, SC Johnson, GE, Bridgestone, L'Oréal, the SAQ (I'm still wondering who's the client in this business relationship!?!?) and come write your chapter in our wonderful story. Send your resume to cv@maerix.com.

See you soon!
